562	Yes हां	No नहीं	No नहीं	No नहीं	Yes हां	No नहीं	Adapting think-pair-share to Zoom: Ryan Tahmaseb, director of library services, says he found that giving more project-based learning activities to his elementary and middle school students—and allowing them more autonomy over assignments—naturally encouraged richer discussions in virtual learning. “If we give students as much freedom as possible to experiment, research, and pursue interests within our content area, then they inevitably have a lot more to say,” said Tahmaseb. When it came to class discussions, Tahmaseb adapted think-pair-share to Zoom. Students were given a prompt, broken into groups, and then placed into breakout rooms to discuss and record their answers on a shared Google doc, which allowed students to share their thinking in writing or read aloud. Since Tahmaseb wasn’t in each breakout room to listen to the conversations, the Google doc kept students accountable. Once they returned to the whole class, volunteers from each group shared their answers with everyone.	Connect to students individually. While those who teach need to create good strategies that will help them work with all of their students, when they are in an online environment it is extremely important to also meet with students individually. In traditional classroom settings where those teaching can see how students are doing daily, interact with them one-on-one if they have questions, and speak to them in private if needed. Teaching online can still allow for those same opportunities for students. It can happen as teachers open hours and virtual resources for students to log on and chat or message them if they have questions or concerns, or teachers can video call and check in with students every week or two in order to make sure they are doing well. These meetings can help teachers assess how students are doing academically with the online courses and lessons, as well as socially and mentally. Good education involves students who are successful in other areas of their life, and teachers play an important role in this wellness. Meeting one-on-one with students will help teachers evaluate how their students are doing.

901	Yes हां	Yes हां	Yes हां	No नहीं	Yes हां	No नहीं	The modern teacher looking for new ways to engage with their students must be innovative and explore using technologies that appeal to the students. This does not necessarily mean large investments in screens and apps. Instead, teachers can use videos, digital games, free online resources and digital tools that can be easily implemented in their classroom. Young students are more adept with technological skills, so by integrating technology into the classroom, you will instantly help your students learn better and faster	Today, technology surrounds us. We have photos, games, communication, research, and more—right at our fingertips. Technology has drastically changed the way we do just about everything, including the way we teach and learn. Kids today know how to get a device to work better than their parents do, and as technology continues to advance, it will continue to shape their world. Online teaching is one of the key ways that technology has changed the world around us. For places like Western Governors University, online teaching is crucial to helping thousands of students get the higher education they deserve, without disrupting their work and family life. Online teaching is also moving into younger educational institutions, K-12 schools are seeing more opportunities for online teaching and learning every day

984	Yes हां	Yes हां	No नहीं	No नहीं	Yes हां	No नहीं	Make connections to real-world applications of the course material. Provide for hands-on activities (active learning) over straight lecturing. Facilitate in-class discussion groups and group work. Provide opportunities for students to be a mentor and to function as a peer teacher. Help students understand and use new terminology, so they can become fluent in the language of your discipline. Many concepts can be more effectively demonstrated with visual aids such as diagrams, drawings, charts, slides, etc. . Keep your students thinking. Unless they are actively using the concepts you are teaching, most students will remember only a small fraction of what you teach. A lecture is an efficient way to deliver information to large numbers of people, but it is an inefficient way to provide students with lasting knowledge and skills. Consider using at least some classroom time for activities other than traditional lectures, discussions or question and answer sessions. Problem solving exercises in small groups can take no more than a few minutes, yet allow students to engage with the material being covered.	Even when you're teaching online, it's important to create a classroom setting that students want to engage with. Live class sessions using technology can help create a classroom setting. Utilizing great visual aids can help students find fun and enjoyment from their learning. As the teacher, you can utilize technology to record fun videos so students feel connected to you, or host live class sessions or one-on-one conversations so students can still engage with you in real time. Students want and need that interaction with a teacher to trust and learn well from them. A narrative approach to teaching will help you create a classroom setting to engage students. Talk about yourself, tell stories, and create fun learning opportunities for students online. Call students by their names, remember details about them, and have stories throughout different lessons to really help you create a fun, comfortable classroom setting.

Provide for meaningful teacher-student interactions.Make course expectations clear and based on learning outcomes.Make course expectations explicit.State the learning outcomes and make clear connections to the real world. Engage students in assignments that have a clear connection to learning outcomes, as opposed to those that are perceived as busy work.	Some colleges around the country are moving to in-person learning, with online options for students who don't wish to attend in-person. Other colleges will be having some days online, and still others will be fully online for the foreseeable future. Now more than ever, educators are critical for helping students continue to learn and thrive amid the uncertainty.

988	Yes हां	Yes हां	Yes हां	Yes हां	No नहीं	Yes हां	Encourage active and practical learning. Make connections to real-world applications of the course material. ... Provide for meaningful teacher-student interactions. ... Make course expectations clear and based on learning outcomes.Make course expectations explicit. State the learning outcomes and make clear connections to the real world. Engage students in assignments that have a clear connection to learning outcomes, as opposed to those that are perceived as busy work.	Teachers have extremely difficult tasks before them as they work to adjust their curriculum and lesson plans to fit their new normal. The most important thing for everyone who teaches is to find safe ways for students to continue getting the education that they deserve. Teachers want students to feel safe and comfortable while still giving them opportunities for learning and growth.
989	Yes हां	Yes हां	Yes हां	Yes हां	No नहीं	Yes हां	Make course expectations explicit. State the learning outcomes and make clear connections to the real world. Engage students in assignments that have a clear connection to learning outcomes, as opposed to those that are perceived as busy work.Make course expectations explicit. State the learning outcomes and make clear connections to the real world.	Those who are teaching are shouldering an extremely heavy burden, and their value simply can't be overstated. Educators now more than ever are going above and beyond, doing extra work for online classrooms, changing their strategies and plans, and working to ensure that students can be successful.

1233	Yes हां	Yes हां	Yes हां	Yes हां	Yes हां	Yes हां		वर्तमान में लगभग सभी प्राइवेट स्कूलों और कुछ सरकारी स्कूलों ने आनलाइन शिक्षा के माध्यम से बच्चों को शिक्षित करना शुरू कर दिया है। लेकिन हमारे देश में अभी भी ऑनलाइन शिक्षा प्रारंभिक अवस्था (Primary Stage) में ही है। इसको बेहतर बनाने के लिए कई उपाय करने होंगे जो निम्न है। भारत की लगभग 66% आबादी गांवों में रहती हैं।कुछ गांवों तक तो इंटरनेट नेटवर्क पहुंच गया है। लेकिन अधिकतर गांवों या दूरदराज के क्षेत्रों में इंटरनेट की सुविधा उपलब्ध नहीं है। अगर कहीं इंटरनेट सुविधा उपलब्ध भी है तो सिग्नल बहुत कमजोर (Weak) होते हैं जिसकी वजह से इंटरनेट एक्सेस ढंग से नहीं हो पाता है। जो बच्चों की ऑनलाइन शिक्षा में सबसे बड़ी बाधा है। सरकार को सबसे पहले गांव-गांव तक व सुदूर सीमावर्ती क्षेत्रों तक इंटरनेट नेटवर्क को पहुंचाने के लिए ठोस कदम उठाना होगा ताकि बच्चे बिना किसी बाधा के पढ़ाई कर सकें। दूर दराज के इलाकों में आजादी के इतने साल बाद भी बिजली नहीं पहुंची हैं। और बिना बिजली के कंप्यूटर , लैपटॉप या मोबाइल चल नहीं सकते। इसीलिए बिजली गांव-गांव तक पहुंचाकर ऑनलाइन शिक्षा को मजबूती प्रदान की जा सकती हैं। आर्थिक रूप से कमजोर परिवारों के बच्चों के पास ऑनलाइन शिक्षा लेने के लिए जरूरी उपकरण जैसे मोबाइल , इंटरनेट कनेक्शन , कंप्यूटर या लैपटॉप नहीं होते हैं। और कुछ परिवार ऐसे भी हैं जिनके पास सिर्फ एक मोबाइल फोन होता है और घर में पढ़ने वाले दो या दो से अधिक बच्चे होते हैं। ऐसे में एक ही समय पर सभी बच्चों का ऑनलाइन शिक्षा लेना नामुमकिन है। सरकार को कोई ठोस योजना बनाकर आर्थिक रूप से कमजोर परिवारों के बच्चों को ऑनलाइन शिक्षा के लिए जरूरी सामान उपलब्ध कराने होंगे। ताकि इन बच्चों को सुचारु रूप से ऑनलाइन शिक्षा मिल सके। वरना आर्थिक रूप से कमजोर और आर्थिक रूप से संपन्न बच्चों के बीच में एक बड़ी खाई बन जाएगी। सरकार को यह भी निश्चित करना होगा कि कोई भी बच्चा टेक्नोलॉजी के अभाव में पढाई से वंचित न रह जाए। एक सर्वेक्षण से यह बात सामने आई है कि कुछ प्राइवेट कंपनियों/फर्म ऑनलाइन डिग्री को कम महत्व देती हैं। और नौकरी इत्यादि में भी उनको कमतर आंका जाता है।समय के साथ-साथ इस पूर्वाग्रह को भी मिटाना अति आवश्यक होगा। क्योंकि ऑनलाइन शिक्षा लेने वाले व्यक्ति से पारंपरिक शिक्षा लेने वाला व्यक्ति ही बेहतर हो। यह जरूरी नहीं है।

1482	Yes हां	Yes हां	Yes हां	Yes हां	Yes हां	No नहीं	No	No
1483	Yes हां	Yes हां	No नहीं	No नहीं	Yes हां	No नहीं	The modern teacher looking for new ways to engage with their students must be innovative and explore using technologies that appeal to the students. This does not necessarily mean large investments in screens and apps. Instead, teachers can use videos, digital games, free online resources and digital tools that can be easily implemented in their classroom. Young students are more adept with technological skills, so by integrating technology into the classroom, you will instantly help your students learn better and faster	Today, technology surrounds us. We have photos, games, communication, research, and more—right at our fingertips. Technology has drastically changed the way we do just about everything, including the way we teach and learn. Kids today know how to get a device to work better than their parents do, and as technology continues to advance, it will continue to shape their world. Online teaching is one of the key ways that technology has changed the world around us. For places like Western Governors University, online teaching is crucial to helping thousands of students get the higher education they deserve, without disrupting their work and family life. Online teaching is also moving into younger educational institutions, K-12 schools are seeing more opportunities for online teaching and learning every day
1484	Yes हां	Yes हां	Yes हां	No नहीं	Yes हां	No नहीं	Social distancing के साथ पढ़ाई होनी चाहिए।ऑनलाइन क्लासेज ठीक है लेकिन बहुत लोगों के पास smartphone nahi hote hain ya fir network issue hota hai	सरकार को जिनके पास स्मार्टफोन नहीं है उनको स्मार्टफोन उपलब्ध कराने चाहिए और नेटवर्क की भी उचित व्यवस्था हो।

1619	Yes हां	Yes हां	No नहीं	No नहीं	Yes हां	No नहीं	Good morning teachers I am Shivani dhasmana from ba 6 sem student arts .I want to say that I have problem and so many issues regarding online classes.i think online classes is not best in my point of view because student facing so many prblms like ntwrk issue not proper voice came and so many problems then student does not done her study properly and leave the topics .because in online classes not proper environment is given .student take their classes at home with carelessly and not attentive in their classes . At last I kindly request to you please open the college and follow the regular study schedule with proper exams and practicals it can boost up the student performance . Thanking you .	In my point of view online teaching doest improve because student does not take seriously in online classes and attend in only unproper way . So at last I gave suggestion to all to open the university and follow regular study schedule . In online classes I have seen that student doesn't gave their offline exam and promote to another class without exams .so they can't study and skip the topics .at last in my point of view online class is not better and it's didn't improve.

1691	No नहीं	No नहीं	No नहीं	No नहीं	Yes हां	No नहीं		Online teaching apne aap me ek bohot acha platform h. Lekin sabhi bacche iska upyog nhi krr pate kuki har kisi student k paas mobile phones nhi h ya unke parents capable nhi hain ki vo unhe mobile provide kra skein. Gao me dekha jaye to lagbhag sabhi ghro me ye same problems hain jiski vajah se har baccha online class attend nhi krr pata. Mahamari k karan hmare paas online k alawa or koi sadhan nhi hain. Ab yha baat kre ki online teaching ko behtar kese banaya jaye to isliye hme daily classes honi chahiye, hmare teachers jo kuch bhi pdhate h hafte me ek baar us topic se related online test ho.

1814	Yes हां	Yes हां	Yes हां	Yes हां	Yes हां	Yes हां	Online study	

1815	Yes हां	Yes हां	No नहीं	No नहीं	No नहीं	No नहीं	The modern teacher looking for new ways to engage with their students must be innovative and explore using technologies that appeal to the students. This does not necessarily mean large investments in screens and apps. Instead, teachers can use videos, digital games, free online resources and digital tools that can be easily implemented in their classroom. Young students are more adept with technological skills, so by integrating technology into the classroom, you will instantly help your students learn better and faster	Today, technology surrounds us. We have photos, games, communication, research, and more—right at our fingertips. Technology has drastically changed the way we do just about everything, including the way we teach and learn. Kids today know how to get a device to work better than their parents do, and as technology continues to advance, it will continue to shape their world. Online teaching is one of the key ways that technology has changed the world around us. For places like Western Governors University, online teaching is crucial to helping thousands of students get the higher education they deserve, without disrupting their work and family life. Online teaching is also moving into younger educational institutions, K-12 schools are seeing more opportunities for online teaching and learning every day

1967	Yes हां	Yes हां	No नहीं	No नहीं	Yes हां	No नहीं	The most important role for teachers is to coach and guide students through the learning process, giving special attention to nurturing a student's interests and self-confidence. As technology provides more curricula, teachers can spend less time lecturing entire classes and more time mentoring students as individuals and tutoring them in areas in which they need help or seek additional challenges.	Giving students an online schedule with automated content will tell them what's ahead and can give them the maximum possible time to work on something. Students aren't waiting for you to begin to teach—they can get started and come to teachers with questions or further instruction.

2082	No नहीं	No नहीं	No नहीं	No नहीं	Yes हां	No नहीं		Teachers are teaching on whatsapp personally i think that they should be live on google meet or zoom app.
2083	Yes हां	Yes हां	NOT SU	NOT SU	Yes हां	No नहीं	Classroom teaching is a much more better option than online teaching. In online we students are not much focused to what teacher is teaching and sometimes we even deny to attend the class online. Therefore I personally feel that colleges should re-open.	Online teaching also an alternative but what we studends do is all over social media. So I think that teachers must ask students to open their cameras while they are teaching or a particular app should be given so that we studends must not open other applications while they are teaching us. And classes must be regular and strict warning should be given to students that if they don't attend online classes then that will surely effect their exams and marks too and if possible then actions should be taken against students not attending classes.

2470	Yes हां	Yes हां	Yes हां	Yes हां	Yes हां	Yes हां	Classroom teaching inculcates conflict resolving skill, presentation skills when it comes to presenting their ideas confidently in front of peers, develops team spirit and teaches them to get along with those from different cultural backgrounds. Such experience are valuable in shaping student's communication and listening skills, as well as growing and maturing emotionally.	Without your physical presence in the classroom, it's vital that you establish a virtual presence at the very beginning of the eLearning course. Online teachers need to be engaging and supporting students right from the start and for the duration of the course, to maintain an effective learning community.

2640	Yes हां	Some T	Yes हां	No नहीं	No नहीं	Yes हां	Encourage active and practical learning. Make connections to real-world applications of the course material. Provide for hands-on activities (active learning) over straight lecturing. Facilitate in-class discussion groups and group work. Provide opportunities for students to be a mentor and to function as a peer teacher. Provide for meaningful teacher-student interactions. Learn students' names and demonstrate that you care about their lives. Listen to students' concerns and respond appropriately. Be encouraging and quick to recognize students' accomplishments. Spend more time with students and communicate with them personally. Make course expectations clear and based on learning outcomes. Make course expectations explicit. State the learning outcomes and make clear connections to the real world. Engage students in assignments that have a clear connection to learning outcomes, as opposed to those that are perceived as busy work.	.1 Utilize a variety of technology options. When it comes to online learning, utilizing technology is absolutely crucial for success. There are many ways that those who are teaching need to prepare to implement technology inside their classrooms, especially when they are primarily connecting with students online. WGU offers a learning and technology master's degree program that can help teachers understand technology and implement it in their classrooms more seamlessly 2. Connect to students individually. While those who teach need to create good strategies that will help them work with all of their students, when they are in an online environment it is extremely important to also meet with students individually. In traditional classroom settings where those teaching can see how students are doing daily, interact with them one-on-one if they have questions, and speak to them in private if needed. Teaching online can still allow for those same opportunities for students 3. Prepare to work with parents. As teachers spend less or no time with their students in an actual classroom, parental involvement will play a huge role in their school success. It's extremely valuable to teachers to communicate with parents about how they anticipate the school year will go so parents can help ensure students have the equipment, setup, and technological skills they'll need to succeed

3477	NOT SU	Some T	No नहीं	NOT SU	Yes हां	NOT SURE कह नहीं सकते	In these covid times, we can improve classroom with full of security and safety of the student. As per the situation, college should be mandatory that at least 50-50 students come and attend their classes. And wear a double mask and carry a small bottle of sanitiser with himself|herself. And make a proper social distancing in college and classroom too. And benches should be arranged in the proper distance, one chair and table require for one student only.	We can improve online classes as teachers should make a channel on youtube or they can record or make a small video on a particular topic because sometimes there are several regions where network problems happens. So if they have a channel or a video then it becomes easier for students to learn everything. Because Network issue becomes a big problem for students. They are not able to attend their live classes lack of poor connections.
3478	Yes हां	Some T	Yes हां	No नहीं	Yes हां	NOT SURE कह नहीं सकते	Provide for meaningful teacher,-studend interaction.make course expectations clear and based on learning outcomes and encourage active and practical learning make connections to real world application of the course material.	Utilize a variety of technology options. Connect to students individually.

3636	Yes हां	Yes हां	NOT SU	No नहीं	Yes हां	No नहीं	मुझे लगता है कि लगभग सभी कालेजों में शिक्षा के मूलभूत साधन उपलब्ध हैं परन्तु मैने अपने व्यक्तिगत अनुभव में यह देखा है की कोई अध्यापक बहुत मेहनत करता है वह एक क्लास भी नहीं छोड़ता और वहीं दूसरा अध्यापक ऐसा होता है जिसे ये भी पता नहीं होता कि मेरे पास पढ़ाने के लिए सिलेबस के कौन से टॉपिक हैं? यही विडंबना है इस समस्या का समाधान मिल जाए तो कुछ बेहतरी की उम्मीद की जा सकती है। वरना डिग्री बस नाम की है यही असलियत है। हमारी तो कोरोना के पहले वाले 3 सेमेस्टर में organic chemistry की एक भी class नहीं चलायी गयी फिर क्या होना था सबकी बैक आयी केवल ट्यूशन वाले बच्चों को छोड़ के।	एक सीमा तक ऑनलाइन टीचिंग अच्छी है जैसे कि इस महामारी में। इसमें अभी तक सही तकनीकें काम कर रही हैं। परंतु मेरे व्यक्तिगत जीवन पर इसके कई दुष्प्रभाव पड़ रहे हैं चाहे वह स्वास्थ्य के दृष्टिकोण से हो या पढ़ाई के। चौबीसों घण्टे मोबाइल इंटरनेट हमारे जीवन का अंग बनते जा रहा है जो की बिल्कुल सही नहीं है। ऑनलाइन शिक्षण में बेहतरी क्या हो सकती है? चाहे इसमें कितनी भी बेहतरी आ जाए , मोबाइल स्क्रीन के सामने तो दिमाग खराब फिर भी होना ही है।
3637	Yes हां	Yes हां	Yes हां	No नहीं	Yes हां	Yes हां		

3638	Yes हां	Yes हां	Yes हां	No नहीं	Yes हां	Yes हां	To bring quality in education, it is necessary that the objectives of education should be constructed on the basis of physical, social, economic, cultural environment. It is very important to have a proper environment for learning and for that it is very important to make the environment around the students conducive for learning and education.	Most of the government schools do not have smart class, e-board, computer, printer and even internet connection. Where children can also be given basic knowledge of computer and internet. If online education is to be successful, then all government schools will have to be equipped with internet connection and computer facilities. Syllabus and course material will have to be prepared according to online education.

Provide for meaningful teacher-student interactions. ... Make course expectations clear and based on learning outcomes.	Online teaching is one of the key ways that technology has changed the world around us. For places like Western Governors University, online teaching is crucial to helping thousands of students get the higher education they deserve, without disrupting their work and family life. Online teaching is also moving into younger educational institutions, K-12 schools are seeing more opportunities for online teaching and learning every day.

4649	Yes हां	Yes हां	No नहीं	No नहीं	Yes हां	No नहीं	As a teacher, you need to reflect on your teaching practices frequently and take responsibility to improve your performance. Many aspects related to teaching e.g. lesson planning, classroom management techniques, language practice, … need to be improved from time to another so that you can boost your classroom performance and get the students to achieve the desired learning objectives.	There is no shortage of formative assessment strategies, techniques, and tools available to teachers who use formative instructional practice in their classrooms. Here is an extensive list of 75 digital tools, apps, and platforms that can help you and your students use formative assessment to elicit evidence of learning. We didn't just add any old tool to this list. Here are the criteria we used for those that made the cut: Supports formative instructional strategies and ways to activate learners to be resources for themselves and peers Is free or awful close to it (under $10 per year, where possible) Allows both students and teachers to take the activator role when possible.
4650	NOT SU	Yes हां	NOT SU	No नहीं	Yes हां	No नहीं		From my point of classes should be conducted regular for improvement in onilne classes nd teacher should pay attention in every single once so that thy can also be strick during there classes
4651	Yes हां	Yes हां	No नहीं	Yes हां	No नहीं	Yes हां	Each class must be of 45 minute and extra 15 min for queries sometime student do not ask questions but every one has doubt so teacher should clear the doubts and give some extra information. And practical should be done in alternate days.	In online teaching only teacher speak student do not speak, so teacher should be friendly with student and ask questions to atleast 3 to 4 questions in groups to students in this way every student will get some confidence that teacher know that they are there and student also become responsible towards there study.

4695	Yes हां	Yes हां	No नहीं	No नहीं	Yes हां	No नहीं	University Jaisa ki hame pta he covid chal rha he pure desh me ese me sabhi cheejo ko dhyan me rakhana anivarya he jaha ham online ki bat kar rhe he isme kuch teacher's students ko time nhi de rhe he online padai achche se nhi ho pa rhi he jisse students ko kai problems ka samna karna pad rha he.. College bhi band he students ke pass books bhi nhi he ... Online padai se kaii cheejo ka samna karna pad rha he padai achche se nhi ho pa rhi he..	Online padai ko behtar banana he to teacher's ko apne karya k parti puri lagna honi chahiye students self study to kar sakte he but fir bhi teachers ki jarurat hoti he teachear's ko bachcho ko niyamit tarike se class lene ke liye kahe taki bachche online class ka fhayada utha sake..

4696	Yes हां	Yes हां	No नहीं	No नहीं	Yes हां	No नहीं	To improve classroom teaching first of all we should Make connections to real-world applications of the course material. Secondly Provide for hands-on activities (active learning) over straight lecturing. Facilitate in-class discussion groups and group work & also Provide opportunities for students to be a mentor and to function as a peer teacher.	To improve online classes 1-Utilize a variety of technology options Connect to students individually. 2-Prepare to work with parents. 3-Consider new learning methods 4-Provide collaboration and socialization opportunities.Build a personal connection with your students. 5-Motivate all students. 6-Help students maintain focus. 7-Create a sense of community. 8-Make discussions meaningful.

5233	Yes हां	Yes हां	No नहीं	No नहीं	NOT SU	Yes हां	THE CLASSROOM IS A DYNAMIC ENVIRONMENT, BRINGING TOGETHER STUDENTS FROM DIFFERENT BACKGROUNDS WITH VARIOUS ABILITIES AND PERSONALITIES. BEING AN EFFECTIVE TEACHER THEREFORE REQUIRES THE IMPLEMENTATION OF CREATIVE AND INNOVATIVE TEACHING STRATEGIES IN ORDER TO MEET STUDENTS' INDIVIDUAL NEEDS. WHETHER YOU'VE BEEN TEACHING TWO MONTHS OR TWENTY YEARS, IT CAN BE DIFFICULT TO KNOW WHICH TEACHING STRATEGIES WILL WORK BEST WITH YOUR STUDENTS. AS A TEACHER THERE IS NO 'ONE SIZE FITS ALL' SOLUTION, SO HERE IS A RANGE OF EFFECTIVE TEACHING STRATEGIES YOU CAN USE TO INSPIRE YOUR CLASSROOM PRACTICE.	MOTIVATION IS A KEY TO EFFECTIVE LEARNING, AND PERHAPS THE SINGLE MOST IMPORTANT CONTRIBUTOR TO MOTIVATION IS THE COURSE'S PERCEIVED RELEVANCE. THUS, IT IS IMPORTANT TO DISCUSS THE COURSE'S UTILITY, VALUE, AND APPLICABILITY FROM THE OUTSET. HELP YOUR STUDENTS UNDERSTAND THE WAYS THAT YOUR COURSE PROVIDES AN ESSENTIAL FOUNDATION FOR MORE ADVANCED COURSES, HOW IT WILL HELP THEM ACQUIRE PARTICULAR SKILLS, OR HOW IT ADDRESSES ISSUES THAT THE STUDENTS FIND PARTICULARLY INTERESTING.

5453	Yes हां	Yes हां	Yes हां	Yes हां	No नहीं	Yes हां	There should be regular classes and proper books should be available in library related to our subject and syllabus. Teachers should prepare short and easy notes for students because our syllabus is too much to cover. Syllabus should be clear to teachers and students according to every topic and it's every part because syllabus is too waste and it is difficult to understand that which type , element and part of that particular topic we have to read.	There should be proper Wi-Fi network in college so that there will be no network issue. Numerical subject should be thought with the help of board and short notes of every topic should be provided because it is not possible to read all the chapters from mobile and make notes from it.
